Team Balance

The squad is limited to 14. This means "The Coach" is limited to a number of players per positions. In many cases they will look for players who are adaptable and able to play in more than one position. The team also requires the balance of having a set number of forwards, midfielders, defenders and one goalkeeper per squad as well as left and right flankers and players who can fit into the team pattern of play. Often selection comes down to an instinctive process, a "gut" feels of selectors, rightly or wrongly they are asked to evaluate players who are often very even in ability in a very short time span. The final decision is made without fear or favour of any one person or group over another, the volunteer managers and the coach do their best to select a squad that will represent Victoria with pride and gain the most from a fantastic sporting and social experience. The Coach will select the best players according to his/her own belief of the game.
